### Janome Pin Cushions

The sewing machine pincushion is so cute and very handy, no more looking for pins.

It's a clever design which can be used both for square and round spool pin holes, this allows the pincushion to fit many models in our range, both past & current.

If your machine has a spare spool pin hole, use the Janome pin cushion, no more pins floating around your machine while you sew. Very handy for when you attend sewing workshops or sewing retreats.

Part Number	Description	Compatible Machines
202 256 005	Pin cushion (pink, white dots)	All pin cushions fit into the spare spool pin hole whether it is a square or round hole.
202 256 016	Pin cushion (white, red dots)
